Introduction Call

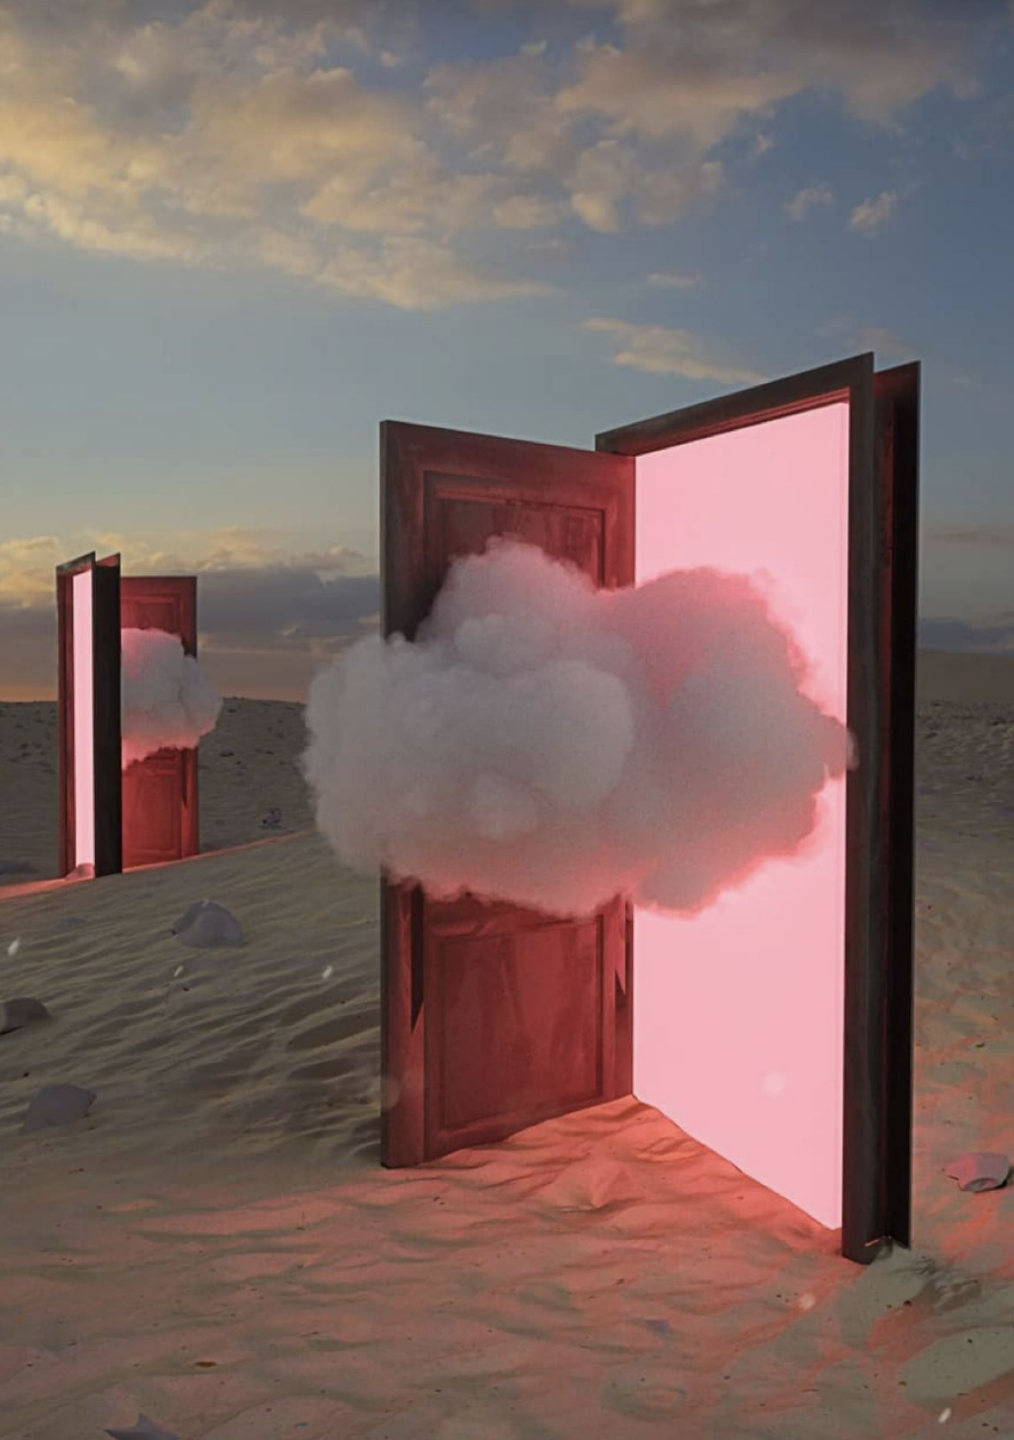

Three Sessions

Reflection

Starting the programme.....

- Why did you apply to be on the programme?
- What would you like to get out of the programme?
- When would you like the sessions - let's pencil them in
- Where would you like the sessions to take place, generally online or via phone calls
- Make a plan for the three sessions, but it's ok not to stick with the plan!
- Reflect on why you applied, what we discussed, how you feel now?

Why the programme is important

Protected time for yourself

Protected space for yourself

Protect time to think things through

Time to be listened, supported and guided

What other supports are out there for you?

Thank yourself to protect the time and space, to clear out your mind, to take your next steps
